

# State Route 4: Sand Creek Interchange & 4-Lane Widening Project

APRIL 2014

## What Work Will Be Done?

The contractor for the Contra Costa Transportation Authority will begin pile driving for the widening of the Sand Creek Bridge, which will once complete, provide much needed congestion relief on State Route 4 (Formerly SR4 Bypass).

## What Can We Expect?

During the duration of the bridge construction, you will notice the installation of temporary construction safety railing and the placement of precast concrete girders. Pile driving at the abutments of Sand Creek for the bridge foundations will commence on April 14, 2014 and will last approximately 1 to 2 weeks. You may notice increased noise from pile driving from 7:00 AM until 5:30 PM, Mondays through Fridays.

## Who is Doing the Work?

The Contra Costa Transportation Authority is administering the project through their construction manager Parsons Brinckerhoff. The project is being constructed by the contractor, Bay Cities / Myers, Joint Venture.

## When Will Work be Completed?

The project started in June 2012 with completion anticipated in the fall of 2014.

Please drive with caution through the work area and leave a safe traveling distance between your vehicle and the vehicle ahead of you. CCTA appreciates your patience as we work to improve mobility in East Contra Costa County.

For the most current information please contact the project hotline number at 925-206-3002 or go to [www.4eastcounty.org](http://www.4eastcounty.org).
